1. Applicant's election with traverse of Group 1 in Paper No. 5 is acknowledged.

The traversal is on the ground(s) that the claims may all be searched without serious burden. This is not found persuasive because the search for each invention requires a different search strategy and the search required for Group I is not required for Group II.

The requirement is still deemed proper and is therefore made FINAL.

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 9, it is not clear what amount is being set forth regarding myrtenol and piperonyl acetate. There is no measure of same.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Cirigliano et al (U.S. Pat. No. 6036986).

Cirigliano et al discloses a tea beverage containing 0.2 tea solids, for example, and also containing sorbic acid and benzoic acid in amounts as instantly claimed, cinnamic acid in the amount instantly claimed, and lemon flavor/juice wherein said juice or lemon flavor inherently brings an additional essential oil to the beverage (e.g. claims and examples).

Art Unit: 1761

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cirigliano et al (U.S. Pat. No. 6036986)..

If it is shown that Cirigliano et al (U.S. Pat. No. 6036986) does not disclose essential oil (from juice including lemon) or disclose the essential oil as called for in, for example, claim 2, such would have been well within the purview of one having ordinary skill in the art. Absent a showing of unexpected results, it would have been obvious to said skilled artisan to include said essential oils as a matter of preference depending on the particular flavor desired in the final beverage product or as a result of a cost and availability considerations.

5. Claim 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
